

Company Profile

PT. DEWATA TEHNIK

Head Office : Jl. Wonorengkut Utara VI/19 RT 003 RW 002 Wonorejo, Rungkut, Surabaya
Workshop : Jl. Raya Gilang 160 Taman - Sidoarjo
Phone : (031) 7879859, 7888652
Fax : (031) 7888652
E-mail : mail@dewatatehnik.com

BACKGROUND

PT. Dewata Teknik has been established in Surabaya since November 2nd, 1997, located in : Wonorungkut Utara VI/19 Surabaya. Until this time being, it has been developing and improving its scope of work and services continuously, therefore, its has successfully built the head office and workshops at two different locations.

Began from a small engineering subsidiary company, PT. Dewata Teknik has been working extensively to expand their scope of works and broaden its experiences by taking the comprehensive over view in every move it made.

As the range of business and capabilities in construction business are growing rapidly and become very competitive, PT. Dewata Teknik extends its scope of works and services, by working on steel construction especially in the work of fabrication, machining, and erection.

Today, PT. Dewata Teknik improved its capabilities, considered as a superior pulley product, branded as “Indopulley” that can be relied on. The superiority lays on its quality and advantages.

PT. DEWATA TEHNIK

Head Office : Jl. Wonorungkut Utara VI/19 RT 003 RW 002 Wonorejo, Rungkut, Surabaya

Workshop : Jl. Raya Gilang 160 Taman - Sidoarjo

Phone. (031) 7879859, 7888652 / E-mail. mail@dewatatehnik.com / Website. www.dewata-tehnik.com

VISION

PT. DewataTehnik always improve and maintenance their capabilities and services, also develop its system a broad, by taking the chances that may bring the bright future ahead.

MISSION

Extending the availabilities of taking order in order to meet the customer's satisfactions become company's achievements. PT. Dewata Tehnik will only doing the best with the advance methodes and serving the best quality performance.
